November 27, 1973

Ms. Ellen J. Windsor  
14 Darte Avenue  
Carbondale, Pennsylvania 18407

Dear Ms. Windsor:

Your note to American Association of Retired Persons concerning your electric blanket has been sent on to us here at the Automatic Blanket Plant.

We have not received any previous complaints about the type of problem which you have had with your blanket. If you will send your blanket and control to us by insured mail, we will check them over completely and provide any needed service at no charge.

When sending the blanket and control to us please enclose the extra copy of this letter in the package to identify it for correct handling.

If you prefer, you can wait until the end of the winter season to return them to us. It does not appear that this condition would be a hazard, unless you are allergic to dust of somekind.

We hope this proposal is suitable and are glad to be of service.

Very truly yours,

  
E. W. Delahooke  
Manager - Product Service
